Installation Ideas

x2 ..... Second one

LEDs Reacting to Facial / Gestural Input.

~ = wavy LED animation / two sets.

1a Interactive Object.

Arduino

finger Gesture Input

mesh

1b

Interacting with the ball?? -> emotions?

Idea is to have a space where people can be honest and vulnerable. Get in touch with their emotions.

1c

Interact with a malleable form. Think.. Stress Ball.

Provide tactile feedback

Final exhibition

source ... → object ...

① art scene / in space

sound all around

You, evens feelings *** → sound?

so maybe that's the same for lights? → Aura Camera

→ Idea that could have colors.

Hopefully :)

② screens (?) Possible???

X
